Dear Ms. Armour:

I along with my staff would like to thank you for your enlightening speech at the Federal Aviation Administration's (FAA) Information Technology/Information Systems Security (IT/ISS) Partnership and Training Conference held February 25-29 in Atlanta, GA. Your presentation was very well received. It triggered motivation and inspiration that will benefit our conference delegates for years to come.

The comments and evaluations we received about the conference were overwhelmingly positive. We fully recognize that we would not receive such positive feedback without the excellent presentations provided by talented individuals, like you.

Thank you again for taking time out of your busy schedule to share your experience and wisdom at our conference.

Sincerely,

A handwritten signature in black ink that reads "Michael F. Brown".

Michael F. Brown
Director, Office of Information Systems Security
