

COMMANDER, NAVAL SEA SYSTEMS COMMAND

26 February 2008

Vernice

Dear Ms. Armour,

I want to thank you for taking time to address the Naval Sea Systems Command at our 2008 African American History Celebration. I very much appreciated your perspectives on diversity, and enjoyed hearing about your life saving role in Iraq as America's first African American female combat pilot. Your theme of setting personal goals and doing something everyday in pursuit of them, as told through your own experiences, was uplifting and gave each of us something to aspire to.

On behalf of the entire NAVSEA team, thank you, and good luck in your future endeavors.

P. E. SULLIVAN
Vice Admiral, U.S. Navy

Ms. Vernice G. Armour
